The International  
Trademark System

# Here's what you need to know about the Madrid System!

Attractive and lucrative markets are becoming more accessible as the global economy provides a world of opportunity for smart businesses – both large and small – to sell their goods and services outside Singapore.

The Madrid System is your one-stop solution for registering and managing trademarks in different countries all at once. It is administered by the World Intellectual Property Organization, a specialized agency of the United Nations.

Registering your trademark internationally is the first step in protecting your commercial interests abroad and should be an integral part of any global business strategy.

By filing one application, in one language with one set of fees, trademark owners can seek protection in more than 110 countries including China, Japan, the Republic of Korea, the US and the members of the European Union.

Make your move now to secure your trademark all over the world. Visit [www.wipo.int/madrid](http://www.wipo.int/madrid), contact the Intellectual Property Office of Singapore at (65) 63398616, or call an IP lawyer to find out how to protect your brand in key overseas markets.
