23 May 2014

Letter of Intent to Purchase without obligation a number of Koobatra Automated Ovitrap

Dear Mr. Schweiger,

As spoken during our conversation on 05 May 2014, we acknowledged that we find the Koobatra Automated Ovitrap intriguing because it may help to simplify and improve our longstanding efforts to avoid mosquito problems on our premises at 303 Pasir Panjang Road.

We have understood that the concept of the Koobatra Automated Ovitrap business model involves an online surveillance of its operation and a maintenance by Koobatra staff in case that there should be a system disruption

We herewith declare - without prejudice and obligation- our in-principle interest to install two Koobatra Automated Ovitrap on our premises, provided that the operation of these devices is allowable according to Singapore law which shall be demonstrated by a positive confirmation letter issued by the competent authority.

Best Regards
