

29 May 2014

Dear Mr. Schweiger,

Letter of Intent to install a number of Koobatra Automated Ovitrap

as spoken during our conversation on 05 May 2014, we acknowledge that we find the Koobatra Automated Ovitrap intriguing because it may help to simplify and improve our longstanding efforts to avoid mosquito problems on our premises at 155 Gul Circle and 116 Neythal Road.

We have understood that the concept of the Koobatra Automated Ovitrap business model involves an online surveillance of its operation and a maintenance by Koobatra staff in the case that there should be a system disturbance.

We herewith declare - without prejudice - our in principle interest to install two/at least ten Koobatra Automated Ovitrap on our premises, provided that the operation of these devices is allowable according to Singapore law which shall be demonstrated by a positive confirmation letter issued by the competent authority.

Yours faithfully

Lim Beo Peng
Executive Director
